

PRESS RELEASE

SALINI IMPREGILO WITH LANE WINS \$404M CONTRACT IN CALIFORNIA (USA)

Milan, August 20, 2018 - The Salini Impregilo Group, through its U.S. subsidiary, The Lane Construction Corporation, has won a design-build joint-venture contract with Security Paving Company, Inc. to construct the I-10 Corridor Contract 1 Express Lanes in California. The work's overall value amounts to \$672.9 million, with Lane's share of the contract valued at \$404 million.

The Inland Empire, the metropolitan area and region in Southern California where I-10 is located, has experienced significant population growth in recent years and anticipates future growth of more than 50%. The I-10 Corridor is a critical link within the Inland Empire, serving local, commuter and interstate travellers. It also serves as a major trucking route between Southern California and the rest of the United States.

The Contract 1 portion of the project involves designing and constructing 11 miles of two express lanes in each direction of the I-10 from the Los Angeles/San Bernardino County line to east of the I-10/I-15 interchange. Once completed, the lanes are expected to reduce traffic congestion, increase throughput, enhance trip reliability and provide long-term congestion management of the corridor in the Inland Empire.

Work is expected to begin by the end of 2018 and be completed in the first half of 2023.

Salini Impregilo is a leading global player in the construction of large, complex civil infrastructure. It specializes in the water sector – where it has been recognized as global leader for five consecutive years by Engineering News-Record (ENR) - as well as railways and metro systems, bridges, roads and motorways, civil and industrial buildings, and airports. The Group has more than 110 years of applied engineering experience on five continents, with design, engineering and construction operations in 50 countries and more than 35,000 employees from 100 nationalities. Salini Impregilo is a signatory of the United Nations Global Compact and pursues sustainable development objectives to create value for its stakeholders. It assists clients in strategic areas including energy and mobility, helping to drive development and well-being for current and future generations. Its leadership status is displayed in projects such as the new Panama Canal, the Grand Ethiopian Renaissance Dam in Ethiopia, the Cityringen metro in Copenhagen, the new Riyadh metro system, the Stavros Niarchos cultural centre in Athens, and the new Gerald Desmond Bridge in Long Beach, USA. In 2017, new orders totalled €6.7 billion, with a total backlog reaching €34.4 billion. Salini Impregilo Group is headquartered in Italy and is listed on the Milan Stock Exchange (Borsa Italiana: SAL; Reuters: SALI.MI; Bloomberg: SAL:IM).
