

PRESS NOTE

WEBUILD DELIVERS NEW CAREGGI HOSPITAL UNIT IN FLORENCE OVER 150 NEW BEDS: ORDINARY INTENSIVE AND SUB-INTENSIVE

Florence, January 7, 2022 - A new block of almost 10 thousand square metres, with over 150 new beds, for ordinary, intensive and sub-intensive care. The new Block F is a 5 storey building (plus basement) for hospitalization, which will contribute to assisting COVID patients. It was delivered recently to the Hospital Management of the “Azienda Ospedaliero-Universitaria” Careggi, in Florence by Webuild through its subsidiary NBI.

This significant work, for the “Servizio Sanitario della Regione Toscana” (Health Service of the Tuscany Region), completes the 12 Deas Building dedicated to clinical and surgical emergencies of the Trauma Center, also built by NBI. Block F completes the structure with new wards for patients, surgery and trauma hospitalizations. Other departments are currently being activated for Hematology and Bone Marrow Transplant purposes.

Works were carried out by the joint venture under the supervision of the “Azienda Careggi” Management, and were designed to ensure safety, functionality and comfort, both for patients and healthcare professionals. The structures and systems were also adapted to the most advanced requirements of the new anti-COVID regulations: ordinary wards were conceived as sub-intensive wards. The medical gas supply systems were designed with flow rates and air changes, to ensure flexibility and ventilation capacity for patients in all health-assistance pathways in the new block. The data lines were also intensified in terms of their transmission capacity and data outlets, to ensure the activation of remote monitoring activities of patients.

Webuild has a track record that includes the design and construction of over 150 healthcare facilities globally: in Europe, the Middle East, South America, Africa and Asia. Among its completed projects is the “Ospedale dell’Angelo” in Mestre, a state-of-the-art facility, considered one of Europe’s most beautiful hospitals. Among its projects under construction, the Etlik Integrated Health Campus in Ankara, in Turkey, a very modern health centre of 1.1 million square metres, which will become one of the largest in the world as well as the Monopoli-Fasano Hospital, an example of green architecture and a premium health centre for Southern Italy.

Webuild, the new group born in 2020 from Salini Impregilo, is a leading global player in the construction of large, complex projects for sustainable mobility, clean hydro energy, clean water, green buildings, supporting clients in achieving sustainable development goals (SDGs). The Group is the expression of 115 years of engineering experience applied in 50 countries, on five continents, with 70,000 direct and indirect employees, from over 100 nationalities. Recognized for five years by Engineering News-Record (ENR) as the world leader in water infrastructure (such as dams, hydraulic tunnels, water and wastewater management, and water treatment and desalination plants), it ranks since 2018 among the top 10 in the environment sector. It also leads the sustainable mobility sector (especially metro and rail lines, in addition to roads and bridges). Firmatario del Global Compact delle Nazioni Unite, il Gruppo esprime le sue competenze in progetti come le metropolitane di Milano M4, Grand Paris Express, Cityringen di Copenhagen, Sydney Metro Northwest in Australia, Red Line North Underground a Doha, Linea 3 Metro a Riyadh; le linee ferroviarie ad alta velocità in Italia; il nuovo Ponte di Genova in Italia e il nuovo Gerald Desmond Bridge a Long Beach, California; l’espansione del Canale di Panama; l’impianto idroelettrico Snowy 2.0 in Australia; la diga di Rogun in Tajikistan; l’Anacostia River Tunnel e il Northeast Boundary Tunnel a Washington, D.C.; lo stadio Al Bayt, che ospiterà la coppa del mondo del 2022 in Qatar. In 2020, the Group’s total order backlog reached €41.7 billion, with 89% of the backlog of construction orders involving projects supporting the SDGs set by the United Nations. Webuild, subject to direction and coordination by Salini Costruttori SpA, is headquartered in Italy and is listed on the Milan Stock Exchange (Borsa Italiana: WBD; Reuters: WBD.MI; Bloomberg: WBD:IM).
