

PRESS NOTE

COSSI COSTRUZIONI (WEBUILD GROUP) WINS €189 MLN MOTORWAY MAINTENANCE WORK IN ITALY.

GROUP EXPANDS IN ROAD SAFETY AND REHABILITATION SECTOR IN ITALY

MILAN, March 17, 2022 - Cossi Costruzioni (Webuild Group) has won three contracts worth a combined total of €189 million to perform extraordinary maintenance work and upgrade the safety and acoustic barriers on sections of motorway in Genoa, Milan, and between Bologna, Florence and Fiano Romano. The contracts highlight the Group's interest – and Cossi's expertise – in the road maintenance sector.

Cossi Costruzioni and partner MGA Manutenzioni Generali Autostrade Srl (owned by Reway Group, the largest Italian operator in road and highway infrastructure maintenance), who had together been identified as the preferred bidders for the contracts in August 2021, won Lot 2 on the Ligurian network worth €49 million, Lot 6 worth €58 million in Milan, and Lot 9 worth €82 million in Lazio and Toscana. Cossi Costruzioni has a 71.5% share in Lot 2, 76.3% in Lot 6 and 83.2% in Lot 9.

Webuild is using Cossi's expertise to expand into the road and highway maintenance and rehabilitation business as Italy looks to improve the quality of its motorways. The country's network is one of the most articulated in the world, with the motorways alone exceeding 7,000 kilometres, and regional and provincial roads more than 15,000 kilometres. There are also 16,000 bridges and viaducts, most of which are more than 50 years of age.

A global leader in the infrastructure sector, Webuild has a track record that includes the construction of more than 80,200 kilometres of roads and motorways, and the excavation of more than 2,300 kilometres of tunnels.

Webuild, the new group born in 2020 from Salini Impregilo, is a leading global player in the construction of large, complex projects for sustainable mobility, clean hydro energy, clean water, green buildings, supporting clients in achieving sustainable development goals (SDGs). The Group is the expression of 115 years of engineering experience applied in 50 countries on five continents with 70,000 direct and indirect employees from more than 100 nationalities. Recognized for five years by Engineering News-Record (ENR) as the world leader in water infrastructure (such as dams, hydraulic tunnels, water and wastewater management, and water treatment and desalination plants), it ranks since 2018 among the top 10 in the environment sector and it is also leader in sustainable mobility (especially metro and rail lines, in addition to roads and bridges). A signatory of the United Nations Global Compact, the Group's expertise is displayed in projects such as the M4 metro line in Milan, Grand Paris Express, Cityringen in Copenhagen, Sydney Metro Northwest, Red Line North Underground in Doha, Line 3 of the Riyadh Metro and the high-speed railways in Italy. Other projects include the new Genoa Bridge and the new Gerald Desmond Bridge in Long Beach, California, the expansion of the Panama Canal, the Snowy 2.0 hydroelectric power station in Australia, the Rogun hydroelectric dam in Tajikistan, the Anacostia River and Northeast Boundary tunnels in Washington, D.C. and the Al Bayt 2022 World Cup stadium in Qatar. In June 2021, new orders totalled €43.3 billion. Some 92% of the backlog for construction orders involves projects tied to the sustainable development goals of the United Nations (SDGs). Webuild, subject to direction and coordination by Salini Costruttori S.p.A., is headquartered in Italy and is listed on the Milan Stock Exchange (Borsa Italiana: WBD; Reuters: WBD.MI; Bloomberg: WBD:IM)
