

PRESS RELEASE

CSC COSTRUZIONI (WEBUILD GROUP) CONSORTIUM WINS €157 MLN N2 GENTILINO-LAMONE (LOT 202) HIGHWAY CONTRACT IN SWITZERLAND

BIGGEST HIGHWAY MAINTENANCE PROJECT IN TICINO CANTON IN 30 YEARS

MILAN, July 31, 2023 – CSC Costruzioni, the Swiss subsidiary of the Webuild Group, and its consortium partners have won the N2 Gentilino-Lamone (Lot 202) highway maintenance contract worth €157 million, the biggest of its kind in 30 years in the Canton of Ticino, Switzerland. CSC will lead the consortium with a 35-percent stake. The other partners include Implenla, Edilstrada, Matteo Muttoni Costruzioni and Casada.

Commissioned by the Federal Roads Office (USTRA), the contract is part of the “USTRA EP 28 Gentilino-Lamone” project to modernise and perform extraordinary maintenance work on a little more than six kilometres of the N2 highway from the north portal of the Gentilino tunnel to Lamone, including an interchange at the north of Lugano. Lot 202 comprises the main civil works such as rebuilding and modernising 27 structures, underpasses, bridges and related works.

Work is to last nearly four years with the involvement of up to 120 people, both directly and indirectly.

The executive phase of the project will be challenging because it will proceed without interrupting the flow of traffic. Some 80% of the asphalt to be used in the repaving of the stretch of highway will come from recycled materials.

CSC is involved in a series of highway projects between Milan and Gotthard, including the maintenance and adjustment of nearly two kilometres of highway between Chiasso and Lugano, also in the Canton of Ticino.

Webuild is a global leader in the design and construction of large, complex projects in the sectors of sustainable mobility (rail, metro, bridges, roads, ports), hydropower (dams, power plants), water (treatment and desalination plants, wastewater management, irrigation dams) and green buildings (civil and industrial buildings, airports, stadiums, hospitals). It supports clients in achieving the Sustainable Development Goals (SDGs) established by the United Nations. The recognised leader in infrastructure for the water sector, it operates in 50 countries. It has 85,000 direct and indirect employees from 100 nationalities, and a supply chain of more than 17,500 businesses. In its 117 years of applied engineering on more than 3,200 projects, the Group has built 14,118 kilometres of rail and metro lines, 82,509 kilometres of roads and highways, 1,018 kilometres of bridges and viaducts, 3,396 kilometres of tunnels, and 313 dams and hydropower plants. Projects include the Genoa San Giorgio Bridge, the second Panama Canal, the Lake Mead Third Intake hydraulic project near Las Vegas in the United States, the Airport Line in Perth, Australia and the Stavros Niarchos Foundation Cultural Center in Athens. Projects under construction include the Brenner Base Tunnel, Line 4 of the Milan metro system, the Terzo Valico dei Giovi-Nodo di Genova in Italy, and the North East Link of Melbourne in Australia. As of June 30, 2023, the Group had total orders worth €61 billion, with more than 90% of the Group’s construction backlog related to projects linked to the advancement of the United Nations 2030 Sustainable Development Goals (SDGs). Webuild, subject to the direction and coordination of Salini Costruttori S.p.A., is headquartered in Italy and is listed on the Milan stock exchange (WBD; WBD:MI; WBD:IM). Since 2021, it is member of the MIB ESG, the index of Italian companies with the best ESG practices.
