

PRESS NOTE

WEBUILD: GLOBAL LEADER IN SUSTAINABILITY WITH “A” RATING FROM CDP CLIMATE CHANGE PROGRAMME

- *Webuild joins A List of CDP Climate Change 2025, confirming and consolidating its commitment to climate change fight*
- *Group’s excellence in managing environmental issues reaffirmed, strengthening corporate reputation among stakeholders and investors*

MILAN, December 11, 2025 – Webuild has achieved an “A” rating from CDP’s Climate Change 2025 programme (formerly Carbon Disclosure Project), allowing it to join the prestigious “A-List” that includes only four percent of the more than 24,800 companies assessed worldwide. Receiving the highest recognition under the programme confirms the Group’s excellence in environmental management, further enhancing its reputation among investors and stakeholders.

Webuild’s inclusion in the A-List is the result of a solid climate strategy, for years part of its long-term growth plans aimed at reducing environmental impact and contributing to the achievement of U.N. Sustainable Development Goals in the regions where it operates. CDP’s assessment, based on rigorous criteria for governance, corporate policies, climate risk management, and environmental performance, represents a key tool to ensure transparency and comparability of information for stakeholders.

Webuild has also obtained a “B” rating in the Water Security section, which was compiled for the first time in 2024. This result highlights the Group’s commitment to responsible water resource management, with actions focused on reducing freshwater use and making consumption more efficient, including through the increasing reuse of water.

CDP is an independent, international non-profit organisation that annually assesses companies on behalf of more than 740 investors, representing assets of over US\$136 trillion. The evaluation considers companies’ commitment to identifying and managing climate risks, setting ambitious environmental targets, outlining coherent strategies and policies, and communicating environmental performance in a transparent way.

Webuild has already received numerous international recognitions for its ESG commitment. The Group is included in the MIB® ESG Index of Borsa Italiana and ranks among the top industry players in major ESG rating assessments issued by independent international organisations, such as ISS-ESG (with a B- Prime rating), Moody’s ESG – formerly Vigeo Eiris (Advanced level), MSCI ESG Ratings (AA), and Ecovadis Sustainability Rating (83/100, Gold Medal).

Webuild is a global leader in the construction of large, complex infrastructure projects, with a focus on sustainable mobility, hydropower, water treatment, and green buildings. A recognized leader in the water sector and active in about 50 countries, the Group employs approximately 95,000 people of over 125 nationalities. It boasts 120 years of experience with over 3,700 completed projects. Its track record includes 13,648 kilometres of railways, 891 kilometres of metro lines, 82,577 kilometres of roads and highways, 1,022 kilometres of bridges and viaducts, 3,462 kilometres of tunnels, and 319 dams and hydropower plants. Among its most iconic projects are the Grand Ethiopian Renaissance Dam in Ethiopia, the expansion of the Panama Canal, the Long Beach International Gateway bridge in California, the Second Bosphorus Bridge in Turkey, the Sydney Metro Northwest skytrain viaduct and bridge, the Kingdom Centre skyscraper in Riyadh, and metro lines in cities such as Copenhagen, Paris, Rome, Milan, Naples, Doha, Thessaloniki, and Riyadh. Ongoing projects include the New Genoa Breakwater, the Brenner Base Tunnel, the Pedemontana Lombarda Highway, Metro di Roma’s Line C, the Genoa-Milan and Naples-Bari high-speed/high-capacity railways, the Palermo-Catania-Messina high-capacity railway, the Snowy 2.0 hydropower scheme in Australia and the Dams System in Trojena in Saudi Arabia. As of December 31, 2024, the Group registered total revenues of €12 billion. As of June 30, 2025, its total order backlog stands at approximately €59 billion, with

over 90% of its construction backlog related to projects linked to the United Nations Sustainable Development Goals. Listed on the Borsa Italiana stock exchange in Milan (WBD; WBD.MI; WBD:IM), it is member of the MIB ESG index of Italian companies with best ESG practices. Headquartered in Italy, it is subject to the management and coordination of Salini Costruttori S.p.A.
